

Hello everyone,

I am Eliza Roy(**Roll no: 20CH10017**) from the Department of Chemical Engineering.

I wish to apply for the post of **Secretary: Community and Crisis**.

- As a student of this institute, I have learned a lot about the community and the students living interdependently and attempting to solve their problems through common action. I thrive to be their medium of communication whenever such action needs to be taken.
- I would make sure the bonds of religion or the bonds of language do not intervene in the community. Thus, a community may be a part of the wider community, and, in fact, all community is a question of degree.
- With community comes the crisis. Crisis can be in many forms. A major problem of the community is the mental health of students. I wish to start a **Community Wellness program** as an extension of our existing counseling center designed to educate, motivate, and support members of our community.
- Secondly, I would like to protect the interests of the students in the event of any misconduct or misbehaviour particularly the rights of the female students in our institute.
- I would also like to improve the condition of the medical facility in the institute to combat a bigger medical emergency if any.
- And last but not the least I would make sure that the issues of the students are resolved as early as possible and such cases don't go beyond the boundaries of the institute.

I promise I shall be impartial and unbiased while making any decision and would always keep in mind the best interests of my prestigious institute.

I hope that you all will be voting for the best and the deserving candidate.

Regards,  
Eliza Roy
