

Hello Kgpian,

Hope you are all well in this pandemic situation!!

I am Chandra Shekhar Kumar pursuing M.Tech (IInd year) in Environment Engineering and Management under the department of Civil Engineering. I am glad to share that I am contesting elections for the post of Secretary of “Community and Crisis” in ‘Technology students’ Gymkhana (TSG), IIT Kharagpur for the academic year 2021-2022.

As a student we all have our different challenges in our academic and as well as social life. Sometimes it is hard and painful to deal with those challenges alone which we cannot share with our family and friends due to the fear of their judgments. For those problems we need someone who can listen to us in those times and help to find the right way and accept us as we are without any prejudice. I promise to all of friends, I will become the one who will listen to your thoughts, ideas and feelings without any discrimination.

As in Bhagwat Geeta it is also mentioned when Arjuna the great warrior of that time engulfed in the depths of despair and confusion he asks lord Krishna for the guidance and accept him as a guru and shared all his problems with him without any hesitation and win the fierce battle.

By sharing our problem with each other we can succeed our battles.

Here, I would like to convey that my soul purpose is well-being of everyone for which I am aspiring to achieve the following points.

- To help in establishing mutual trust among peer groups and faculties & students following points:
- To help everyone in achieving their maximum potential and confidence
- Take care of everyone mental health & create awareness through seminar/webinar for physical and emotional well –being
- To organize relevant events on regular basis for a better understanding how to follow a happy, sustainable and healthy life style.
- To make an effective collaboration by taking care of each other and to be there in difficult circumstances as well to celebrate our happiness together.

“I do assure my commitment and I aspire for everyone’s well-being. I also like to add one more point, I am an active member of a Patna based NGO named “Blood Seva Pariwar” which helped many people by arranging plasma and oxygen cylinders during prevailing COVID-19 pandemic .”

Thanking You!

CHANDRA SHEKHAR KUMAR
