Proposals for Secretary: Indoor Game

I am putting my proposals gamewise in below mentioned points:

1.Chess- I would be conducting online events to increase involvement of students and to spread the importance of chess for refreshment of mind.

I am planning to conduct -

- a) *Webinars with Experts-* I would be inviting Chess experts to guide students and increase overall participation.
- b) *Fresher's tournament-* after admissions of new batch to nurture interest for Chess from the very beginning.
- c) *Open IIT Tournament-* for involvement of students from all over the Campus.
- d) *Online Quiz-* to enhance knowledge of game among students.

After reopening the institute campus I would make sure proper availability of chess equipment in Technology Students' Gymkhana.

2.Table Tennis- In Indian Institute of Technology Kharagpur, girls' involvement in the game of Table Tennis is considerably less. So I would put efforts in online mode to promote the game of Table Tennis among girls on campus and arrange a proper training environment for them once we get back to campus. I would assure that the Table Tennis team doesn't find any shortage of equipment.

- a) *Interest Survey-* I would be conducting an online survey among students to know who all are interested in Table Tennis.
- b) *Expert Talks-* I would be organizing an online interactive session with Table Tennis Experts.

3.Bridge- there are few platforms available for conduction of online Bridge tournaments. So I would like to use these facilities for the betterment of student community interest. I would be conducting a Bridge tournament before the General Championship to increase interest as well as participation.
