

INDIAN INSTITUTE OF TECHNOLOGY  
KHARAGPUR

**VOTE**  
MONDAY  
JULY 26

**SHAILESH SINGH**  
FOR  
SECRETARY

**COMMUNITY  
& CRISIS**

**MY PROPOSAL**

**This new era of online semesters is taking a toll on everybody, through confession pages on Facebook and one of the major issues that have surfaced is students fighting depression, loneliness, and lack of communication among the students. Students are finding it difficult to keep in touch with their fellow batchmates and share their problems.**

# BRIDGE THE GAP

The idea is to circulate a google form that would be open 24/7 among the students along with my contact details having my number and email id so that they can reach out to me at any time of the day without any hesitation. In the google form, their identity would be hidden so that they can seek any suggestions and share their problems promptly and anonymously. Students can reach out to me directly 24/7 through any possible medium and I would try my best to provide them best possible help or suggestion.

# **SOCIETIES, CELLS AND SELECTIONS**

**One of the major problem that the fresher's faced was appearing in the interview of society and cells. Students felt disheartened and depressed when rejected by any society during the interview round, to be tackle these problems grooming session and practice interview session would be arranged to prepare them.**

# **FUN-DAY FUNDAAE**

**Fundae sessions would be organized bi-monthly which would be taken by all of the qualified and enthusiastic seniors and alumni where students can ask about both academic and non-academic queries. Seniors and alumni would also be sharing their experience through their college life.**

# THE CDC STRESS

Similar session would also be conducted before semester exams and CDC. In these sessions every information related to exam or CDC would be explained in detail. The session would be conducted by the seniors to help the students prepare well mentally so that the students feel less stressed.

# STRESS BUSTER SESSIONS

**Gaming session would be organised in every two weeks. The team member would randomly be selected to increase the synergy among the students. These gaming sessions would help them make new friends have interaction and act as a "Stress buster"**
