

**Indian Institute of Technology Kharagpur**  
**Technology Student's Gymkhana**  
**Squash Subcommittee**

With respect to the present scenario (**online mode**) I propose the following:

1. To conduct **virtual meet's** for students to guide them in making **healthy dishes** at home. This would help them in **maintaining a healthy diet**.
2. To conduct a **virtual awareness** seminar for **Squash** as there is very **less** active **participation** in our college for **Squash**.
3. To conduct **virtual meet's** to **watch international tournaments** for the players to **learn** different **techniques** and **skills**.
4. To conduct interactive **workout** sessions on a **daily** basis.

With respect to future scenarios (**offline mode**) I propose the following:

1. To conduct **outstation tournaments** by **collaborating** with **different sponsors** to give the **Inter IIT team** a **competitive experience**.
2. To develop a **new court**, as there is only **one court** for the players in the **campus** due to which they do **not** get **enough time** slots **to practice**. (This is also **necessary** to make **Point 2 of online mode** more **effective**).
3. To create **separate** time slots for **female players** and **male players** to improve their **skills** and **techniques**.
4. With respect to the previous point I would also **encourage female** students **participation** in **Squash**.
5. To provide **non team members** with **new** racquets and other necessary **equipment**.
6. To **renovate** the **present court** by managing **funds** from the **budget**.
7. To **promote** the culture of **Squash** in our college by conducting **awareness seminars** for squash and form a **stronger team**.
8. To conduct **daily interactive sessions** with the **team members** along with the respective **PTI ( Mr Ishan Ahmed Sir )** to **know** the **team** in a much better way.

Lavesh Kasodekar  
Candidate, Squash
