

Proposals of General Secretary Sports and Games

SERAMPALLY SRI HARSHA REDDY

Proposals:

1. Introduction of student-run clubs for those students who are interested in learning and improving their performance in a particular sport
2. Conducting E-Sports as Open IIT tournaments to bring out competitiveness in the students. (Which can also be conducted amidst the pandemic, from home.)
3. Inclusion of slot booking for hassle free access to the various grounds and courts on our new Gymkhana website and addition of a hall of fame section to include the names of all Inter-IIT players along with their individual or team position in the respective years of Inter-IIT.
4. Conducting various workshops and orientation programs for women to increase their participation in sports activities
5. Introduction of a discord server for the live streaming of matches and a separate channel of every sport for the live streaming of matches

PROPOSAL 1:

Introduction of student-run clubs for the students who are interested in learning and improving their performance in a particular sport.

SALIENT FEATURES AND IMPACT:

1. Our college students wish to learn and take part in a lot of sports activities. Provisions for the same are less and are insufficient for all enthusiasts. I propose the introduction of student-run clubs under Gymkhana which strives to help the student enhance their performance.
2. This club ensures that there is no student left out in the campus who wants to learn a sport and is left out because of lack of facilities, for example you may be wanting to learn a sport since your childhood and due to some or the other circumstances, you couldn't learn that , but with these clubs ,you don't have to worry about it, this club got you covered.
3. Despite not being selected for NSO of a sport, the student could be talented and might lack practice due to vigorous preparation for JEE or due to lack of facilities.
4. This will also prepare and groom first-year students for the inter IIT.

PLAN OF ACTION:

1. There will be 2 inter IIT players, 2 NSO 2nd year players or earlier NSO players of 3rd year, supervised by a coach.
2. These clubs will be managed by the subcommittee for the discharge of specific functions.
3. These sessions will be conducted weekly once or twice, based on the response.
4. The students will be given an incentive and a certificate by the Gymkhana for working towards the advancement of sports culture in our college.

This survey was conducted among the first-year students of KGP.

Q. Do you think these clubs are required for the betterment of KGP's sports culture?

Total votes: 155

PROPOSAL 2:

Conducting E-Sports as Open IIT tournaments to bring out competitiveness in the students. (Which can also be conducted amidst the pandemic, from home.)

SALIENT FEATURES AND IMPACT:

1. E-Sports are a major source of relief during the online semesters which are also gaining a widespread popularity.
2. Participating in E-Sports will enable students to connect online. This also promotes bonding of freshers with their respective hall mates.
3. Games like CSGO, Valorant, FIFA etc. can be played on laptops
4. A chance to compete on an online platform. I have come across a lot of online platforms which conduct tournaments for online games very smoothly and efficiently. The matches can be streamed on various platforms as well.

PLAN OF ACTION:

1. There will be a team of 3 or 4 players relevant to the game (Dota, Valorant, Apex, CS Go, FIFA etc.)
2. Proctoring and smooth management of the tournament will be ensured by our secretaries.
3. A series of events will be declared at the start of the semester and the competitions will be held accordingly .

ESTIMATED BUDGET:

Including the prize pool and the charges of the usage of an external hosting platform, I estimate a budget of INR 25,000.

PROPOSAL 3:

Inclusion of slot booking for hassle free access to the various grounds and courts on our new Gymkhana website and addition of a hall of fame section to include the names of all Inter-IIT players along with their individual or team position in the respective years of Inter –IIT.

SALIENT FEATURES AND IMPACT:

1. A new column will be added to our official Gymkhana website. This new feature makes it hassle free for students to book slots depending on the availability of various courts and grounds.
2. This will ensure the prevention of any clashes among students or halls for booking the courts and grounds.
3. This enables students or hall representatives to book courts or grounds conveniently from their rooms and ensure transparency
4. By introducing the names of the Inter-IIT players under the hall of fame we will be able to build a strong alumni network and it will be a moment of pride for us and players to have their names registered in the official website
5. The future generation of our college will be inspired by looking at the achievements of the alums, this will boost them to pursue the sport of their interest more passionately so that their names are also visible on the gymkhana website.

PLAN OF ACTION:

1. The managers of the existing Gymkhana website will be contacted to add these features to the website.
2. A senate meeting will be held with all the representatives from every sports fraternity along with hall representatives to distribute slots on priority basis.
3. A mail will be sent to all the students at the beginning of the semester to create an awareness of all the gymkhana activities and the booking slots will be made open

This survey was conducted among the students of KGP.

Q. Do you think this new feature will make booking slots hassle free in our college?

Total votes: 102

Budget:

No money would be spent on this proposal

PROPOSAL 4:

Conducting workshops and orientation programmes for women to increase their participation in sporting activities

SALIENT FEATURES AND IMPACT:

1. Conducting orientation programs for all women in our college to inspire and promote interest in them towards sports and physical fitness
2. Organizing women open IIT tournaments which will encourage them to actively take part in sporting activities
3. The workshops will raise awareness about various sports and will help the student chose the sport of their interest and take it to the next level with proper guidance.

PLAN OF ACTION:

1. Inviting alumni or prominent women who have excelled in sports for guest lectures and seminars/webinars to inspire and motivate.
2. Organizing regular workshops to promote interest and raise awareness for the betterment of the sport.
3. Preparing a football ground exclusively for women.

TESTIMONIAL:

“Various inter/intra-hall tournaments should be conducted for women to increase their participation in sports activities.”

~ Bhuvaneshwari J (Inter IIT(W) athletics)

“Proper infrastructure should be provided and orientation programs should be held for each hall to effectively motivate the women community.”

~ Priyanka Kumari Ma'am (Sports officer, football)

“Conducting workshops of various sports will help women to choose the sport of their interest and take it to the next level with proper guidance”

~Mahima Karumanchi (Inter IIT Badminton(W) Captain (2019-20))

Budget: approximately 2.5 lacs for the ground and 50,000 for conduction of workshops

Proposal 5:

Introduction of a discord server for the live streaming of matches and a separate channel of every sport for the live streaming

SALIENT FEATURES AND IMPACT:

1. Through this feature we can improve the bonding between the freshers and the seniors.
2. No student of our college would have the trouble of watching their favorite sport at any point of time, the student can just join the server and start watching the match.
3. With the commentary of our Inter-IIT players during the matches and sharing their memories of the college it is going to be interesting and a delight to watch the match along with them.

PLAN OF ACTION:

1.Sub-committees will be creating the respective channels of the sports in the main server “IIT-KGP Sports” and the links to join the server will be provided in the Facebook page of IIT-KGP.

Budget: Around 5,000 for the subscriptions of streaming services
