

Hello everyone,

My name is AMGOTH JITHENDER KUMAR NAIK. I am a first-year Undergraduate student of the Department of Mining Engineering enrolled in its Btech 4 year Course. I am from Telangana. I am boarder of Lal Bahadur Shastri Hall of Residence. I am contesting for the post of Secretary: Cricket, Technology Students Gymkhana, Indian Institute Of Technology Kharagpur for the academic session 2021-22.

Let's get into the facts....

WHY AM I INTERESTED IN CRICKET SECRETARY?

I'm a big fan of MS Dhoni since childhood which led me towards the world of cricket, that is how the journey started...

And I always used to be on the ground for the whole day...(and yeah there were consequences, I used to get a few special treatments from my mother)... Ok jokes apart...

On the commitment of Playing cricket, I got joined with a part of companions who are continuously steady and I have learned a lot more things like Communicating with individuals, how to reply and regard others words and their decisions, moreover the obligation to take care in each circumstance, which expanded my confidence and capacities.

Moreover, I never believe in the phrases "I CAN, I WILL" I only believe in "I HAVE DONE IT".

These things made me contest as Secretary of Cricket.

WHAT THINGS DO WORK IN THE PRESENT SITUATION?

This is to be noted because this pandemic made our lifestyle a completely different pattern and fortunately still we are sustaining in a very positive manner.

So on keeping all the things in my mind I have gone through few things that we can work out now...

- 1.To interact with all the seniors.
- 2.Try to learn and implement the things which can be possible even now...
3. We all need to have sessions as many as possible through which we can understand and learn all our ideas of viewing the world of cricket.
4. Other than cricket there should be a good bond between all of us, which makes us stronger even in the present situation.
5. Try to have online sessions when the live matches are going on... where we can have lots of fun...
6. Encourage other people who are interested but could not be a part of kgp cricket.
7. Our play is open to all who are willing to be a part.
- 8.We all know health is wealth. At this age, fitness is very important because this is the age when every problem affects us mentally and physically. As we grow older these problems might cause many health issues, so this is the right time to focus on our health.

9. Let's have a proper diet that can be followed at present in the home without any difficulty.

10. Moreover to have proper guidance about a little body warmup exercises and have a weekly chat to encourage yourself.

More points to be added after with all your contemplations and requirements...

DO GIRLS HAVE THE OPPORTUNITY?

There will be no gender discrimination in any aspect.

Even our land is called a MOTHER LAND that's the respect we show towards women. So there are plenty of opportunities for them, you have no need to doubt about it. The ground play is for a player a male or a female, if you are willing that is more than enough and opportunities are waiting for you all.

HOW ARE MY WAYS DIFFERENT FROM OTHERS?

Generally, everyone wishes to play cricket, but they start giving up even though they are capable due to so many reasons.

But now from my side, there will be maximum inputs to encourage them any time they need. I will be there as a good friend at any point in any time to take care of them.

Not only cricket or sports, in every single situation. Because I strongly believe that "HELPING FRIEND IS OUR RESPONSIBILITY".

WHAT IS MY MAIN MOTIVE?

From childhood, I saw many people who are extremely talented in many different sports but somehow give up for some reason, but now we have plenty of opportunities to excel.

Moreover, Sports and games show a huge impact on our body fitness.

Fitness is very important in our daily life.

Here comes the main point that sports boost our mental health and physical health, there will be no laziness on doing anything and on playing we can increase our focus and self-confidence, Self-control.

I want to mention an important point that in whole college only max 50 people will play for the college team what about the remaining people who are interested to play, on keeping this in mind I have decided that there will be more friendly matches between branches, hall, etc... it's up to your interest. My main point is I will make the game open for all.

As of now, we can create a few what's app groups where the second half of the IPL gonna start there we can show our strategies, and also we can share a friendly atmosphere.

WHAT AM I EXPECTING FROM BEING A CRICKET SECRETARY

I have no thoughts of getting something or gaining anything.

I'm a person who always tries to have fun in every moment. But this pandemic completely changed my lifestyle. I'm missing those moments and I'm used to calls like yaar, Jeetu, Bhai, Jeetu ji kya hal hai, etc...

Still, we are being happy for what we are. But being an extrovert behaving like an introvert is a difficult thing to accept.

Now being in a big aquarium does not mean we have complete freedom, we need to understand that there is an Ocean waiting for us.

This is my small step to reach you all. Where I will take everything responsibly and give the maximum effects to be with you all in every situation like a friend because once again I'm mentioning that HELPING FRIEND IS OUR RESPONSIBILITY, So here I'm expecting a good bond with you all not more than that.

All the above questions and answers were raised which I thought myself to contest as Cricket Secretary and they are few genuine queries of my friends and all Kgpians. To contest I have taken these many points in my mind, Now it's up to you to imagine how I will take care of the responsibility of Cricket Secretary.
