FOR CRICKET
SECRETARY

THE GAME-CHANGER
WHO GOES ABOVE
AND BEYOND FOR
THE SPIRIT

Statement of Purpose

It is an undisputed fact that Cricket is not only limited to being a sport or a source of entertainment. For decades, the game has played a crucial role in uniting large masses and overlooking their differences. It has a profound impact on its audience. It is a sport that has been watched, played, and talked about extensively. Such a spectacular sport needs to acquire and maintain considerable prominence in the institute also.

WHY ME for the post?

I have had an immense fondness for cricket since my childhood. I share a noble dream of bringing constructive development to the Cricket fraternity. And I firmly believe I'm capable of bringing out the change if given a chance.

I am focused and motivated towards achieving my goals, which helps me complete tasks efficiently. I am determined to accomplish the goal at all costs, even if it demands my limits. And I assure you that I will live up to your expectations given the opportunity.

MY ACTION PLAN

I believe mere emotions are not enough to prove my worth. I aim to work upon following once assigned the post of Cricket Secretary :

1) To give a flavor to KGPians on what it takes to be a cricketer and how much hard work is involved, I intend to organize seminars, interviews, and other interactive sessions with famous sportspeople, who are best in their game at national and international levels.

2) I aim to organize quizzes, meets, and sessions to make students aware of the game, which is most famous and has a special place in every Indian's heart; I will try to organize reconnection meetups with the alumni cricket team of our beloved IIT Kharagpur, and much more.

3) I aim to try my best to diminish discrimination based on gender in the field of cricket as well as other sports. I will ensure women's participation should increase and will take active participation in encouraging them. Seminars and sessions of successful women cricketers, who are no less than their male counterparts, shall be organized.

4) Looking at the current trend of fantasy cricket, I would form a community for the students who are interested in cricket and can discuss and share anything and everything. In addition to that, a Facebook page would be created exclusively for the KGPIans.

5) I would ensure the availability of proper equipment when needed, be it for a special event or a daily dose of fun among friends. I would organize more quality training sessions for everyone and make sure that they get ample opportunities on the campus.

6) I would make sure that the selections happen solely on the basis of talent and potential that one possesses. Also, I would make sure that proper information gets circulated before every match so that interested students can participate, spectate and enjoy the game.

College Reopening

Being the Cricket Secretary, I'll not have my responsibilities limited to Cricket only. A secretary's most important responsibility is to represent students and their problems. I'll try to help others and lend an ear to those students who need to raise their opinions. I'll try my best to solve everyone's problems and represent their views to the higher authorities, whether they're related to cricket or not.

For instance, almost all of us want to get back to the campus and live the "Real College Life." For this, I have done a case study on "Reopening of Campus," which also made its way to the podium. This is the chance to choose your voice to bridge the gap between you and the authorities.

ENDING NOTE

I promise to keep running a positive campaign, to keep my policies transparent, and to focus all my energy on the wellbeing of the KGPIans.

Make your vote count, also remember that **'Together we win'**.

Show us your support on **26th of July 2021**.
